

100

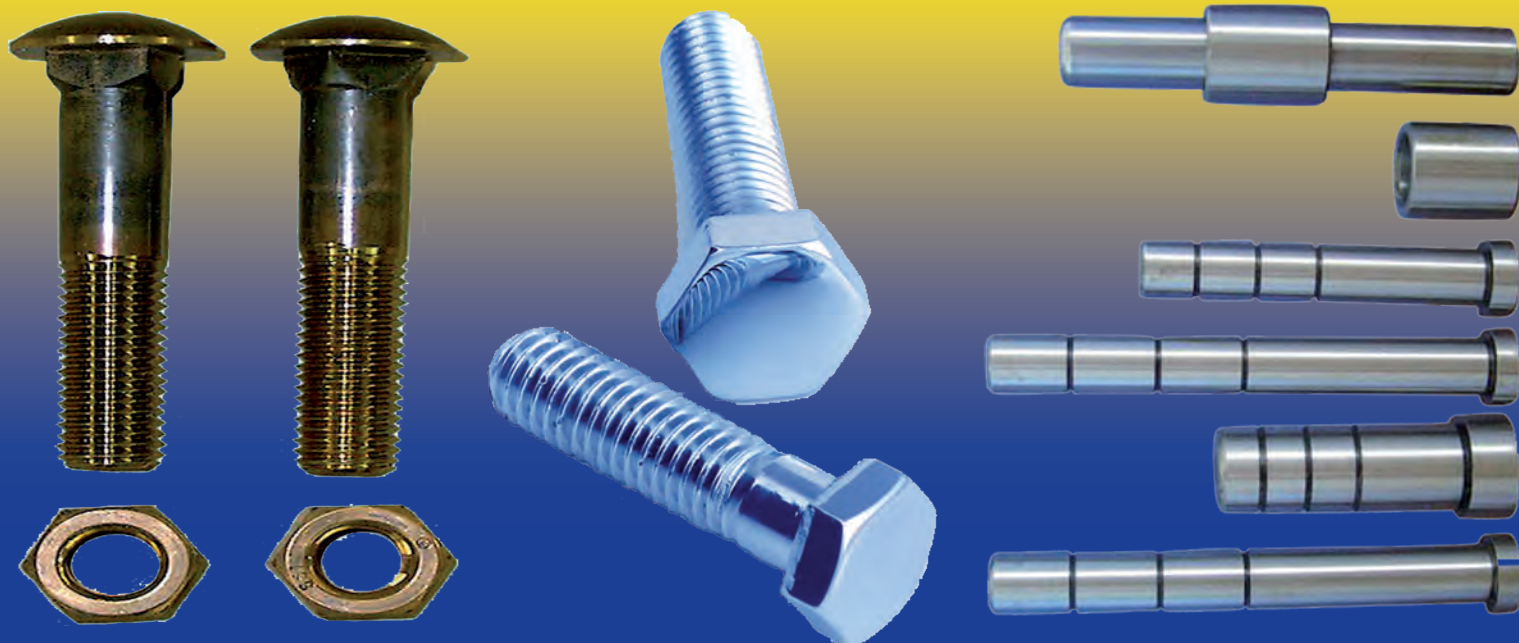

ANTI SEIZE PROTECTION GREASE

Prevents seizure and galling allowing faster assembly of components.

Provides long term protection against corrosion for easy dismantling.

Protects against acid and alkali corrosion.

Orion[®] 
LUBRICANTS

ADVANTAGES

ORION 100 is a premium anti seize compound which allows higher speed assembling of threaded fasteners and easy dismantling.

Prevents corrosion between dissimilar fastening materials, such as aluminium and steel.

ORION 100 resists high temperatures (1000°c).

ORION 100 provides long lasting protection of threaded components and joints whether subjected to high heat, submerged in water or exposed to aggressive environments.

Typical applications:

Exhaust manifold studs - Pumps - Key ways
Spark plugs - Guide pins and shafts - Wheel nuts
Exhaust flanges - Ship and offshore fasteners
