

47

HIGH TEMP NON MELT LUBRICANT

Will not run or drip at any temperature

Formulated to last, reducing lubrication frequency

Provides excellent corrosion protection

47

Orion[®] 
LUBRICANTS

ADVANTAGES

ORION 47 is a universal high temp grease providing exceptional protection.

ORION 47 will not run or melt, it continues to lubricate for greatly extended periods compared to conventional high temp greases.

ORION 47 is moisture resistant and provides good corrosion protection.

ORION 47 provides excellent lubrication in all types of bearings and bushings.

ORION 47 will extend the service life of equipment and reduce grease consumption improving operating efficiency.

Typical applications:

Asphalt works - Steel mills - Road laying equipment
High temp glue applicators - Foundries - Bakery ovens
Water pumps - Low speed exhaust fans
