

Orion[®]
LUBRICANTS

530

SUPER MULTI-FUNCTIONAL TRACTOR LUBRICANT

Exceeds specifications of almost all tractor and equipment manufactures.

Improves performance of hydraulics, transmissions, motors, wet brakes and convertors.

First class diesel and petrol engine oil performance.

Orion[®] 
LUBRICANTS

ADVANTAGES

Orion 530 is an outstanding oil that meets the requirements of agriculture equipment and machinery parks.

ORION 530 is designed to excel in transmissions, gasoline and diesel motors, final drives, hydraulics and wet breaks.

High oxidation and foaming resistance provide increased performance and extended drain intervals.

ORION 530 provides easy operation in cold climates and continues to provide superior lubrication and power transfer when subjected to high load conditions for extended periods.

With multi-purpose functions and ability to excel in both cold and hot working conditions for extended periods **ORION 530** is the ideal choice for cost effectiveness.

Typical applications:

Tractors - Harvesters - Off road vehicles
Motor Cycles - Gasoline and Diesel engines
Stationary generators - Green keeping machinery
Manual transmissions
