

758

STRAIGHT MACHINING & CUTTING OIL

Ideal for practically all types of machining operations.

Can be used on all metal types and alloys.

Permits higher speeds for improved efficiency.

758

Orion[®] 
LUBRICANTS

ADVANTAGES

ORION 758 provides exceptional versatility, can be used on all metals for all types of metalworking.

ORION 758 will not stain yellow metals.

ORION 758 has excellent ability to reduce heat build up and extend service life of tools.

ORION 758 is formulated to provide increased working speeds, reducing machining operation costs.

Typical applications:

Drilling - Thread cutting - Turning
Milling - Tapping - Broaching
