

87

LONG LIFE INTERNAL LUBRICANT FOR CHAINS & CABLES

Super formulation maximizes working life of chain, cable and wire rope.

Deep penetration power gets to core strands.

Superior viscosity blend base oil balances fluidity, adhesivity and penetrability.

Orion[®] 
LUBRICANTS

ADVANTAGES

ORION 87 is a fluid rope and chain lubricant designed to meet lubrication and corrosion protection requirements under virtually all conditions.

ROPES: Provides excellent internal and external protection, **ORION 87** extends rope life.

Addition of solid lubricant, reduces wear between the strands of the rope. Water repellent film ensures long film life extending the re-lubricating intervals.

Thin film eliminates fling off and does not collect abrasive particles. Ropes are clean to handle and allow easy inspection. Extensive covering power, resulting in economic usage.

CHAINS: Penetrates into the chain pin and rollers while leaving thin protective outer film.

Addition of solid lubricant, reduces friction and wear extending service life of the chain.

Thin film eliminates fling off and does not collect abrasive materials.

Water repellent, ensuring long film life and extending re-lubricating intervals.

Extensive covering power, resulting in economic usage.

Typical applications:

Dock and ship crane ropes - Mobile cranes

Drag lines - Hoists and elevators

Brick and cement work chains - Enclosed laundry chains

Motor cycle chains - Conveyor chains
