LUBRICANTS

**935**

## HIGHLY REFINED TWO STROKE OIL

Suitable for both air and water cooled two stroke engines.

Reduces pre ignition and plug fouling.

Provides exceptional performance at 50:1 fuel oil ratio

# 935

**Orion**<sup>®</sup>   
LUBRICANTS

## ADVANTAGES

**ORION 935** is formulated using highly refined base oils and selected additives to give multi function use in two stroke engines.

**ORION 935** provides increased protection from piston seizure and ring sticking.

**ORION 935** is low ash, reducing deposit buildup in the engine and exhaust system.

**ORION 935** is a self mix lubricant that easily disperses in the fuel, the low ash and lean mixture ratio reduce plug fouling.

## Typical applications:

Chain saws - Generators - Lawn mowers  
Motor cycles - Outboard motors - Mopeds
